

Administration

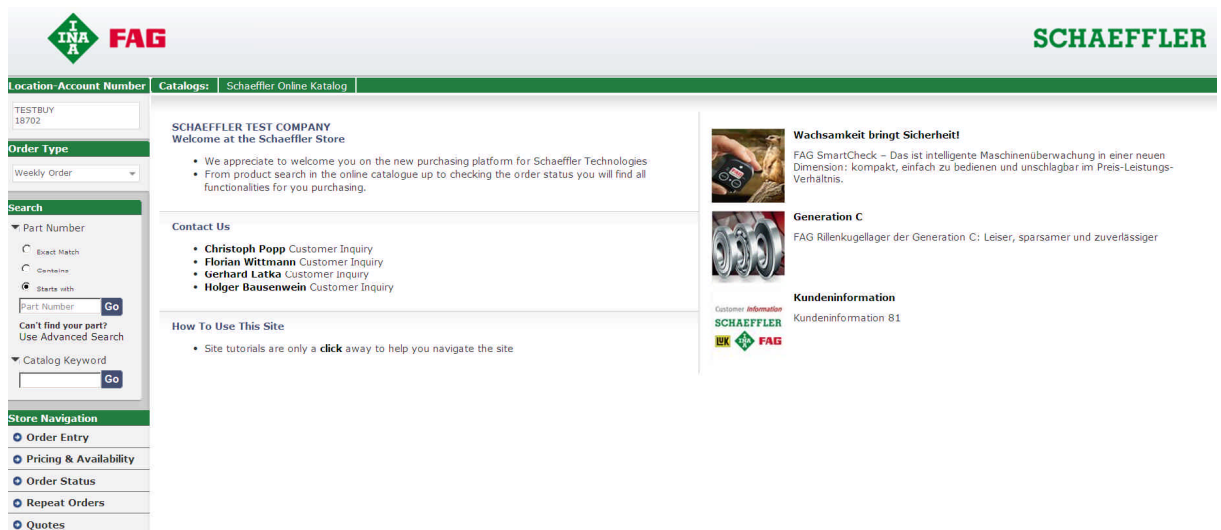

The administration for a Schaeffler Store will be done from a designated **Account Administrator**. When a company will be connected to the Schaeffler Store, the account admin receives a welcome email with the admin username and a link to a site where the admin can create his password and fix a security question.

The Schaeffler Store requires access authorisation for the purchase process and the request of order data. The access must be provided by the account admin.

The admin logs in to the system with his username and password, then the section **Administration** on the left navigation bar has to be opened.

All sections for administration will be displayed in the Administration Navigation along with a short description of the different user roles.

Add or Modify Users

In this section all available users with their roles will be listed first.

Add or Modify User

Name	Role	Username	Last Login Date
A Melissa Sweeney	Buyer	viewStoreBarden	
ADMIN TEST	Account_Administrator	ADMIN TEST

[Delete User](#) [Modify User Profile](#) [Modify User Account Access](#)
[Add a New User](#)

For deletion of modifying a user must be marked on the left side, then press the respective button and follow the next steps.

Via the button [Add a New User](#) a new user will be created.

User Profile

Username*

First Name* Last Name*

Business Phone* Fax

Date Format E-mail Address*

Role Enable Net Price

Select Language

First Customer Number*

[Clear](#) [Cancel](#) [Save Changes](#)

The admin assigns a username and has to fill in the data in all fields with an asterisk. The role of the user will be fixed here – please see role description on the first administration screen. If multiple account numbers are available the first one will be assigned here. Additional account numbers e.g. for INA and FAG must be assigned in the section **Modify User Account Access**

After the data has been changed the sending of a Welcome Email to the user will be accomplished. This email includes the username and a link to a site where the user can create his password and fix a security question.

If the user faces any problems the password may be created from the admin, too. Just select a user in the userlist and follow the link [Modify User Profile](#).

Shop Profile

This section contains data of the Schaeffler Store.

First select an account number in the field on the top. To assign a user this user will be marked in the right box and then moved to the left side with the arrow button.

Add or Modify Shipping Addresses

Shipping addresses may be administrated in this section. New addresses have to be added here and available addresses may be changed directly in the box.

Add or Modify Shipping Addresses

Add/Modify/Delete **Upload**

Select address in window to modify or delete the address. If you need to delete multiple addresses, hold down the shift key while selecting each address.

Add A New Address

AMERICAN GRADIN | 221 HIGHLAND | addy 22 | h
