

**FAG Preservation Spray**

**Arcanol ANTICORROSIONOIL**

Applications: Corrosion protection oil for roller bearings and other metallic surfaces.

Characteristics	Value	Unit	Test method
Operating temperature range:	+5 bis +40	°C	
Density:	0,9	g/cm <sup>3</sup>	DIN 51757
Flash point:	< 0	°C	
Colour number:	3,5		DIN ISO 2049
Film weight:	2,5	g/m <sup>2</sup>	
Water solubility:	insoluble		
Labelling	Text		
Flammable aerosol	Danger  		
H222:	Extremely flammable aerosol.		
H229:	Pressurised container: May burst if heated.		
H336:	May cause drowsiness or dizziness.		
Storage:			
Protect from sunlight. Do not expose to temperatures exceeding 50 °C / 122 °F.
